

AKSHAT SRIVASTAVA

Jaipur, Rajasthan, India | +91 8303449183 | akshatgkp2021@gmail.com | [LinkedIn](#) | [GitHub Profile](#)

PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence & Machine Learning student and Full-Stack Developer with hands-on experience architecting responsive web platforms, secure RESTful APIs, and relational databases. Skilled in React.js, Node.js, Express.js, PostgreSQL, and Prisma ORM with solid algorithmic problem-solving in C++ and Python.

TECHNICAL SKILLS

Languages:	C, C++, Python, JavaScript (ES6+), SQL, HTML5, CSS3
Frontend:	React.js, Vite, Responsive Web Design, WebSockets (Socket.io-client)
Backend & DB:	Node.js, Express.js, RESTful APIs, JWT Auth, RBAC, PostgreSQL, Prisma ORM, Supabase, Redis
Integrations & Tools:	Razorpay API, Jitsi Meet SDK, Resend/Nodemailer, Git, GitHub, Postman, Linux
Core Concepts:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, System Design

FEATURED PROJECTS

Neuro Harmony Clinic – Full-Stack Telehealth Platform | [\[GitHub Code\]](#) Dec 2024 – Present

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Socket.io, Razorpay API, Jitsi Meet, Redis

- **Architecture & Portals:** Built a production-ready teleconsultation system with separate Doctor and Patient portals, appointment scheduling, and live status synchronization.
- **Payments & Concurrency:** Integrated **Razorpay API** with HMAC-SHA256 signature verification and transactional slot locking to eliminate double-booking conflicts.
- **Telehealth & Video Engine:** Embedded token-secured **Jitsi Meet** video consultation rooms with real-time WebSocket queues for live queue updates and alert delivery.
- **Prescriptions & Background Jobs:** Developed a dynamic digital prescription builder with drug composition auto-search, vitals tracking, PDF generation, and automated SMS/Email alerts via **Node-cron & Redis**.

AI-Powered Medical Records Analyzer & Search | [\[GitHub Code\]](#) 2024

Tech Stack: Python, FastAPI, PostgreSQL, Vector Embeddings, LangChain

- **Document Processing:** Built an automated clinical report ingestion pipeline extracting key diagnostic indicators and patient history from unstructured medical PDFs.
- **API & Search:** Designed high-performance asynchronous REST endpoints for semantic similarity retrieval, reducing manual document review time by over 60%.

EXPERIENCE & LEADERSHIP

Technical Peer Tutor & Programming Mentor – Department of CS / Freelance 2024 – Present

- Mentored 30+ students in foundational programming (C/C++), core data structures, and responsive web development (HTML/CSS/JS).
- Conducted interactive code walkthroughs, debugging sessions, and practical lab exercises on Object-Oriented Programming (OOP).

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning – JECRC University, Jaipur	Expected 2028
Senior Secondary (Class XII, CBSE) – Mount Litera Zee School, Gorakhpur	2024
Secondary Education (Class X, CISCE / ICSE) – Little Flower School, Gorakhpur	2022
